

4.3.1 Institution frequently updates its IT facilities including Wi-Fi

Response:

Continuous up gradation of technology and the infrastructure is one of the quality policies of the institution. The institution provides IT enabled teaching-learning environment in the campus round the clock. Leased web connectivity is in place to cater to all students and staff through Wi Fi and physical connectivity. Till May, 2015 we had Wi Fi facility for office, canteen, library and some labs. However since June 2016 Wi Fi facility has spread throughout the campus with a speed of 70mbps.. Since the inception of the college i.e., May 2012 we had CRT Monitors, with INTEL P4 (Processor) RAM 1 GB, with the facility of 2 internets, one is Leased Line with 30 mbps and another one is Broad Band with speed of 40 mbps. However at present we have upgraded with TFT Monitors of dual core with RAM 2GB and using a single internet system Leased Line with 70 mbps.
