1st February 2023

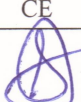

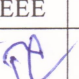

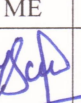

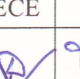

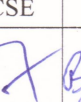

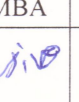

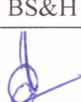

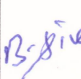

CIRCULAR

The Department of Electrical and Electronics Engineering will host "A One-Week FDP on the Principles of Sustainable Power Generation," which will be held from February 6th to 10th, 2023. Therefore, it is strongly advised that the entire faculty participate in this program according to the schedule provided and make it a grand success. All faculties in the relevant department may participate in the program, although registration is required.

A.P-INDIA.

ABOUT COLLEGE

The Gonna Institute of Information Technology and Sciences (GIITS), a pioneering educational organization, was established in 2009 under the direction of Sri. G. B. Naidu(late), with the aim of giving students access to high-quality education and the requisite infrastructure. It is located in Visakhapatnam, which is one of the cities in Andhra Pradesh with the fastest population increase. The college, with its multicultural and active community of over 1000 students, provides a variety of courses in the Engineering stream, including graduate-level courses in CIVIL, EEE, MECH, ECE, and CSE as well as MBA and M. Tech at the postgraduate level. Since its inception, the organization has worked tirelessly to support the development of great managers, technocrats, and professionals from all over the world in order to give the Indian industry access to cutting-edge information and awareness. The Institute is endowed with informed teachers who are highly qualified, as well as cutting-edge facilities. GIITS offers a range of exciting environments for intellectual development, free-thinking, and personal growth in order to challenge its students and give them the information, understanding, attitudes, and practical experiences they need to assume social duties.

ABOUT EEE DEPARTMENT:

The Department of Electrical and Electronics Engineering at GIITS has been active in teaching and research since its inception in 2009. Currently, about 20 committed faculty members are working in the department. The department offers a wide range of lab courses to cover various aspects of EEE, including power systems, energy control systems and automation, instrumentation and measurements, electrical machines and drives, VLSI, and embedded systems.

These lab courses are designed to provide students with hands-on experience in circuit design, simulation, analysis, equipment operation and control, and circuit building and testing. Under the guidance of experienced faculty members, students are encouraged to explore innovative ideas, troubleshoot problems, and develop practical solutions.

OBJECTIVES OF THE FDP

- The objectives of a Faculty Development Program (FDP) on the principles of sustainable power generation are to educate and train participants on various aspects of sustainable power generation, with a focus on renewable energy sources.
- Introduce participants to various renewable energy technologies such as solar, wind, hydro, geothermal, biomass, and others.
- Explore the challenges and strategies for integrating renewable energy sources into existing power grids and on grid stability, smart grid technologies and demand-side management.

TOPICS TO BE COVERED:

- Introduction to Sustainable Power Generation.
- Solar Power and Wind Power Generation Systems.
- Technological Innovations in Sustainable Power Generation.
- Economic and Policy Aspects of Sustainable Power Generation.
- Global Perspectives & Technological Innovations on Sustainable Power Generation.
- Hydro, Geothermal, and Biomass Power Generation Systems.
- Energy Storage and Grid Integration & Energy Transition Strategies.
- Smart grids and Micro grids and Energy Efficiency & Management
- Practical Aspects and Case Studies.

Gonnavanipalem, Aganampudi, Visakhapatnam – 530 053

13th February 2023

PROGRAMME REPORT

Name of the Programme: A One-Week Faculty Development Program on the Principles of Sustainable Power Generation.

Date : 06/02/2023 to 10/02/2023.

Details of the Resource Persons:

Resource person - 1	Resource person - 2
A.Krishnaiah Asst.Prof,EEE, Trinity College Of Engineering & Technology, Peddapalli. E-mail: Krish4301@gmail.com Ph: 9550017685	Smt.Ch.Bharathi Associate. Professor, EEE, GIITS. E-mail: giitsee@gmail.com Ph: 9110781537

Objective of FDP:

- Understanding Sustainable Power Generation to provide participants with a comprehensive understanding of the principles, concepts, and technologies related to sustainable power generation.
- This includes exploring various renewable energy sources such as solar, wind, hydro, geothermal, and biomass, and their applications in power generation.
- Technological Advancements to update participants on the latest technological advancements and innovations in the field of sustainable power generation Includes grid integration, energy storage and smart grid solutions.
- Case studies provide practical insights into the challenges, opportunities, and best practices in sustainable power generation. They help participants understand the real-world application of principles and technologies discussed during the FDP and foster a deeper understanding of the complexities involved in implementing sustainable power projects.

GONNA INSTITUTE OF INFORMATION TECHNOLOGY & SCIENCES
(Approved by AICTE, New Delhi, Affiliated to JNTU GURAJADA, VIZIANAGARAM)
Gonnavanipalem, Aganampudi, Visakhapatnam – 530 053

Outcomes of the Program:

- The FDP's approach to sustainable power generation would likely focus on market-driven solutions and technological advancements.
- Reduced Greenhouse Gas Emissions Sustainable power generation heavily relies on renewable energy sources such as solar, wind, hydro, geothermal, and biomass.
- Renewable Energy Jobs and Economic Growth the transition to sustainable power generation creates new job opportunities in renewable energy industries, such as solar panel manufacturing, wind turbine installation, and biomass processing.
- Global Cooperation on Climate Change Embracing sustainable power generation principles can foster international cooperation in tackling climate change and meeting the goals set out in global agreements like the Paris Agreement.

Resource person 1:

The FDP topics Presented by A.Krishnaiah, Asst.Prof, EEE, Department

Introduction to Sustainable Power Generation

Energy Storage and Grid Integration & Energy Transition Strategies

GONNA INSTITUTE OF INFORMATION TECHNOLOGY & SCIENCES
(Approved by AICTE, New Delhi, Affiliated to JNTU GURAJADA, VIZIANAGARAM)
Gonnavanipalem, Aganampudi, Visakhapatnam – 530 053

Resource person 2:

The FDP topics Presented by Smt.Ch.Bharathi, Associate. Professor, EEE, Department

Hydro, Geothermal, and Biomass Power Generation Systems

Economic and Policy Aspects of Sustainable Power Generation

Number of the Participants: 30

ABOUT COLLEGE

The Gonna Institute of Information Technology and Sciences (GIITS), a pioneering educational organization, was established in 2009 under the direction of Sri. G. B. Naidu(late) to give students access to high-quality education and the requisite infrastructure. It is located in Visakhapatnam, which is one of the cities in Andhra Pradesh with the fastest population increase. The college, with its multicultural and active community of over 1000 students, provides a variety of courses in the Engineering stream, including graduate-level courses in CIVIL, EEE, MECH, ECE, and CSE as well as MBA and M. Tech at the postgraduate level. Since its inception, the organization has worked tirelessly to support the development of great managers, technocrats, and professionals from all over the world to give the Indian industry access to cutting-edge information and awareness. The Institute is endowed with informed teachers who are highly qualified, as well as cutting-edge facilities.

ABOUT CIVIL DEPARTMENT

The Department of civil Engineering of Gonna Institute of Information Technology and Sciences was established in 2009 and has had an impressive fourteen-year history. The department has always advanced because of the knowledgeable and dedicated faculty members who are passionate about providing top-notch engineering education.

OVERVIEW OF THE FDP

Design and manufacturing industries, this includes the ability to apply advanced mathematical methods, numerical techniques, and computer aided analysis tools. In depth understanding of material behavior this includes the ability to analyze nonlinear stress strain relationships, plasticity. Failure analysis and presentation failures in structures and mechanical components they will understand failure criteria fracture mechanics and fatigue analysis.

OBJECTIVES OF THE FDP

- The objective is to develop analytical and computational tools to analyze and predict the behavior of complex structures and systems.
- Advanced mechanics of strength of materials seeks to explore the failure mechanism and failure criteria of materials and structures.
- The objective is to apply advanced mechanics principles to optimize the design of structures and components.

TOPICS TO BE COVERED

- Torsion of shafts
- Thin-walled pressure vessels
- Steel structures and design

PROGRAMME REPORT

Name of the Program: A one week faculty development program on Advanced mechanics in strength of materials

Date : 13-12-2022 to 17-12-2022

Title of FDP : ADVANCED MECHANICS IN STRENGTH OF MATERIALS

Resource Person 1	Resource Person 2
Mr. P. Krishnam Raju Assistant Professor Mechanical Engineering Mobile No.: 7013141296 Email ID: krishnamraju307@gmail.com	Mr. Y. Suresh Assistant Professor HOD, mech, GIITS

Objective of FDP:

- The objectives of the program are to develop analytical and computational tools to analyze and predict the behaviors of complex structures and systems.
- Advanced mechanics of strength of materials seeks to explore the failure mechanism and failure criteria of materials and structures.
- The objective is to apply advanced mechanics principles to optimize the design of structures and components.
- The ultimate objective of advanced mechanics of strength of materials is to apply the acquired knowledge and techniques to solve real word engineering problems.
- Advanced mechanics of strength of materials aims to provide a comprehensive understanding of the mechanical behavior of materials under various loading conditions.

Outcome of the program:

- The course did an excellent job of helping the faculty to apply advanced mathematical methods, numerical techniques, and computer aided analysis tools.
- In depth understanding of material behaviors this includes the ability to analyze nonlinear stress strain relationships, plasticity.
- Failure analysis and presentation failures in structures and mechanical components they will understand failure criteria fracture mechanics and fatigue analysis.
- Practical applications of concepts shall be learned to real world engineering problems.
- Overall, the outcomes of an advanced mechanics of strength of materials knowledge, skills and complex engineering problems related to material behavior, structural analysis and failure analysis.

PROGRAM REPORT

Name of the Programme: A one-day training program for non-teaching faculty on Introduction to Networking.

Date : 15th November 2022.

Details of the Resource Person

- **Name** : Mr.M.Nagaraju.
- **Designation** : Associate Professor.
- **Department** : Computer Science.
- **Organization** : Gonna Institute of Information Technology and Sciences,
Gonnavanipalem, Visakhapatnam.

Objectives of FDP:

The objectives of an introduction to networking course typically include providing a basic understanding of fundamental networking concepts and technologies.

Here are some common objectives:

- Understanding Networking Fundamentals
- Exploring Network Technologies
- Studying Network Protocols
- Hands-on Experience
- Developing Troubleshooting Skills

Overall, the objectives of introduction to networking are to equip the faculty with foundational knowledge and skills needed to understand, configure, and troubleshoot computer networks. These objectives serve as a basis for further study in more advanced networking topics.

ONNA INSTITUTE OF INFORMATION TECHNOLOGY & SCIENCES (Approved
by AICTE, New Delhi, Affiliated to JNTU GURAJADA, VIZIANAGARAM)
Gonnavanipalem, Aganampudi, Visakhapatnam – 530 053

Outcomes of the FDP:

The training program was very helpful for the faculty to learn about networking concepts like

- Understanding of Networking Concepts
- Knowledge of Network Components and Devices
- Proficiency in Network Configuration
- Understanding of Network Technologies
- Familiarity with Network Protocols and Services
- Awareness of Network Security Concepts
- Troubleshooting Skills
- Effective Communication

Number of the Participants:14

ABOUT COLLEGE

The Gonna Institute of Information Technology and Sciences (GIITS), a pioneering educational organization, was established in 2009 under the direction of Sri. G. B. Naidu (Late), to give students access to high-quality education and the requisite infrastructure.

It is located in Visakhapatnam, which is one of the cities in Andhra Pradesh with the fastest population increase. The college, with its multicultural and active community of over 1000 students, provides a variety of courses in the Engineering stream, including graduate-level courses in CIVIL, EEE, MECH, ECE, and CSE as well as MBA and M. Tech at the postgraduate level.

Since its inception, the organization has worked tirelessly to support the development of great managers, technocrats, and professionals from all over the world to give the Indian industry access to cutting-edge information and awareness.

The Institute is endowed with informed teachers who are highly qualified, as well as cutting-edge facilities.

GIITS offers a range of exciting environments for intellectual development, free-thinking, and personal growth to challenge its students and give them the information, understanding, attitudes, and practical experiences they need to assume social duties.

ABOUT CSE DEPARTMENT

Having a distinguished fourteen-year history, the Department of Computer Science and Engineering of the Gonna Institute of Information Technology and Sciences was founded in 2009. The knowledgeable and committed faculty members who are passionate about offering top-notch engineering education have always contributed to the department's advancement.

OVERVIEW OF THE FDP

The "Exploring Modern Development in Data Visualisation" FDP provides participants with an enriching opportunity to get a thorough understanding of cutting-edge data visualization techniques, tools, and applications. Attendees will leave the program with the ability to produce engaging visualizations that drive better data-driven decisions and boost their professional capabilities.

OBJECTIVES OF THE FDP

The FDP will introduce participants to modern data visualization concepts and principles, emphasizing the relevance of visual representation in data analysis and communication. The FDP will explore the issues of visualizing massive datasets and introduce approaches for effectively representing big data graphically. How to create inclusive data visualizations that appeal to a wide range of audiences while also providing accessibility for individuals with disabilities

TOPICS TO BE COVERED

- Animated Interactive Displays
- Using Big Data to Visualise
- Data Visualisation in Real Time
- AI and machine learning integration
- Adaptive and Mobile Visualisation
- Open-Source resources
- Platforms for Data Visualisation in the Cloud
- Domain-Spanning Visualisation
- Inclusivity and Accessibility

PROGRAMME REPORT

Name of the Programme: A One Week Faculty Development Program on “Exploring Modern Development in Data Visualization”

Date : 17th to 22nd October 2022.

Details of the Resource Persons:

Resource person - 1	Resource person - 2	Resource person - 3
Dr.T. Murali Krishna Associate prof, CSE. Ashoka Women’s Engineering College-Kadapa Contact: 8897797148	Mr. Nagaraju Majji Asst.Prof, CSE, GIITS. Email: lohithnaga2@gmail.com Contact Number: 9121214319	Smt. S. Saraswathi Asst.Prof, CSE, GIITS. Email: vihanvisishta@gmail.com Contact Number: 7780231796

Objectives of FDP:

- ❖ To provide learners with a thorough understanding of the fundamental ideas and theories of data visualization, such as cognitive psychology, perception, and communication theories, which support efficient data display.
- ❖ Participants will be introduced to cutting-edge data visualization tools and platforms used in industry and academia.
- ❖ There will be hands-on instruction utilizing cutting-edge tools to create compelling and interactive visualizations.
- ❖ To improve participants' practical skills in data visualization design, development, and evaluation. Participants will receive practical expertise in converting raw data into useful and visually appealing representations.
- ❖ To investigate ways for developing interactive and dynamic visualizations that allow users to interact with data and explore ideas from diverse perspectives.

GONNA INSTITUTE OF INFORMATION TECHNOLOGY & SCIENCES

(Approved by AICTE, New Delhi, Affiliated to JNTU GURAJADA, VIZIANAGARAM)

Gonnavanipalem, Aganampudi, Visakhapatnam – 530 053

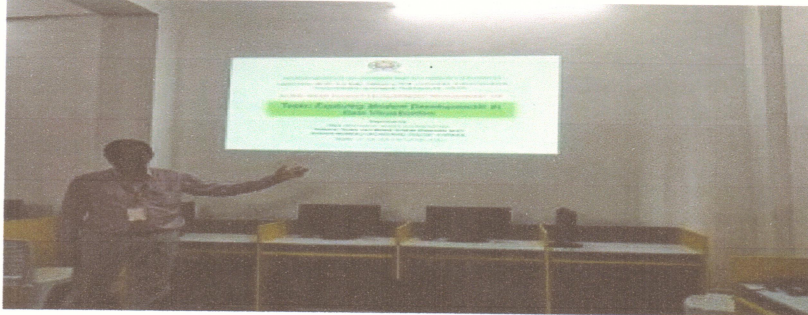

Outcomes of the Program:

- ❖ Participants will have a better understanding of important data visualization concepts such data kinds, visualization styles, and the significance of selecting appropriate visual representations.
- ❖ In order to create dynamic and effective representations, participants will gain hands-on expertise with cutting-edge data visualization technologies like Tableau, Power BI, or D3.js.
- ❖ Participants will learn how to use data visualization as a powerful decision-making tool by transforming complex datasets into meaningful insights that affect choices.
- ❖ Through hands-on exercises, attendees will learn how to develop interactive visualizations that allow users to explore data on their own, fostering deeper engagement and knowledge of the underlying information.
- ❖ Participants will investigate cognitive factors that govern how humans perceive and interpret visual information, allowing them to create more effective and intuitive visualizations.
- ❖ Attendees will acquire insight into ethical aspects linked to data visualization, such as avoiding misrepresentation and ensuring responsible data exchange.
- ❖ The workshop will demonstrate participants how data visualization can be effortlessly integrated with analytics and AI, allowing them to harness the potential of sophisticated technologies in their visualizations.

ABOUT COLLEGE

The Gonna Institute Of Information Technology And Sciences (GIITS), a pioneering educational organization, was established in 2009 under the direction of Sri. G. B. Naidu (late), with the aim of giving students access to high-quality education and the requisite infrastructure. It is located in Visakhapatnam, which is one of the cities in Andhra Pradesh with the fastest population increase. The college, with its multicultural and active community of over 1000 students, provides a variety of courses in the engineering stream, including graduate-level courses in Civil, EEE, Mech, ECE and CSE as well as MBA and M. Tech at the postgraduate level. Since its inception, the organization has worked tirelessly to support the development of great managers, technocrats, and professionals from all over the world in order to give the Indian industry access to cutting-edge information and awareness. The institute is endowed with informed teachers who are highly qualified, as well as cutting-edge facilities. GIITS offers a range of exciting environments for intellectual development, free thinking, and personal growth in order to challenge its students and give them the information, understanding, attitudes, and practical experiences they need to assume social duties.

ABOUT MBA DEPARTMENT:

The Department of Management Studies was established in the year 2019 with an objective of producing Young Management Executives with global standards. The MBA programme is a 2-year (4 semesters) full time Master Degree programme in Business Administration. While the first year is devoted to foundational course, the second year would enable the students to gain a depth knowledge in different areas and specialize in elective fields like Finance, HR, Marketing, Operations, and Logistics.

OVERVIEW OF THE FDP

Our day to day works is more demanding and timely completion of the job makes us stressed and finding a way to relax and relieve in this busy schedule is quite a challenge. This session of stress management is very helpful to all the faculty to understand about stress, its causes and symptoms, how to handle STRESS

OBJECTIVES OF THE FDP

Gonna Institute of information technology and sciences had successfully organized a Three-Day Faculty Development Program on Stress Management. Stress management offers a range of strategies to help you better deal with stress and difficulty (adversity) in your life. Managing stress can help you lead a more balanced, healthier life. The main objectives of this FDP is to help the faculty identify the symptoms of stress and understand the various reasons for stress and deal with stress at workplace effectively. This FDP concentrated on types, causes and techniques to handle stress.

TOPICS TO BE COVERED

- Identify Stress in self & others.
- Causes of stress.
- Symptoms of stress.
- Stress can be helpful or harmful.
- Strategies of stress.
- Techniques of stress management.
- Identify how to build a stress free environment.
- Equip self with tools to fight stress.

RESOURCE PERSONS
